ELSEVIER

Geomorphology 40 (2001) 341–342

GEOMORPHOLOGY

www.elsevier.com/locate/geomorph

Contents Volume 40, 2001

Vol. 40, Nos. 1–2

Research Papers

Inherited vs. acquired complexity in east Texas weathering profiles
J.D. Phillips 1

Quantifying quartz enrichment and its consequences for cosmogenic measurements of erosion rates from alluvial sediment and regolith
C.S. Riebe, J.W. Kirchner and D.E. Granger 15

Natural and human-induced landsliding in the Garhwal Himalaya of northern India
P.L. Barnard, L.A. Owen, M.C. Sharma and R.C. Finkel 21

Impacts of surface elevation on the growth and scaling properties of simulated river networks
J.D. Niemann, R.L. Bras, D. Veneziano and A. Rinaldo 37

Peak discharge estimates of glacial-lake outburst floods and ''normal'' climatic floods in the Mount Everest region, Nepal
D.A. Cenderelli and E.E. Wohl 57

Charles Lyell and 'Modern changes of the Earth': the Milledgeville Gully
B.A. Kennedy 91

Geomorphological variability among microtidal estuaries from the wave-dominated South African coast
J.A.G. Cooper 99

Factors controlling sediment yield from small intensively cultivated catchments in a temperate humid climate
G. Verstraeten and J. Poesen 123

Development of joint-controlled rock basins in Bohus granite, SW Sweden
M. Johansson, P. Migon and M. Olvmo 145

Discussion

Comment on Clarke, Rendell and Wintle (1999): ''Quality Assurance in Luminescence Dating'', Geomorphology 29, 173–185
D.J. Huntley 163

Reply to comment by David Huntley on Clarke, Rendell and Wintle (1999), Geomorphology 29, 173–185
M.L. Clarke, H.M. Rendell and A.G. Wintle 167

Vol. 40, Nos. 3–4

Research Papers

Evidence of recent surface faulting and surface rupture in the Fore-Alps of Veneto and Trentino (NE Italy)
U. Sauro and D. Zampieri 169

The role of soil erosion and fluvial processes in the post-fallout redistribution of Chernobyl-derived caesium-137: a case study of the Lapki catchment, Central Russia
A.V. Panin, D.E. Walling and V.N. Golosov 185

Flood-related changes in heavy metal concentrations within sediments of the Biała Przemsza River
D. Ciszewski 205

Late Devensian and Holocene landscape change in the uplands of the Isle of Man
R.C. Chiverrell, G.S.P. Thomas and A.M. Harvey 219

The value of a physically based model versus an empirical approach in the prediction of ephemeral gully erosion for loess-derived soils
J. Nachtergaele, J. Poesen, A. Steegen, I. Takken, L. Beuselinck, L. Vandekerckhove and G. Govers 237
Coastal cliff recession: the use of probabilistic prediction methods
E.M. Lee, J.W. Hall and I.C. Meadowcroft 253
Recent large-magnitude floods and their impact on valley-floor environments of northeastern Yellowstone
G.A. Meyer 271
Effects of large floods on sediment transport and reach morphology in the cobble-bed Sainte Marguerite River
B.C. Eaton and M.F. Lapointe 291
Channel morphology, gradient profiles and bed stresses during flood in a step–pool channel
A. Zimmermann and M. Church 311
Predicting channel patterns
J. Lewin and P.A. Brewer 329
